VAUGHAN CULLEN

## **ENVIRONMENTAL POLICY**

Management of AMWD Pty Ltd supports any project or program directed at improving or protecting the environment at present and in the future. At all times AMWD considers the effect operations may have on the environment.

As part of this support AMWD undertakes to:-

Give consideration to all aspects of environmental care prior to commencement of the operation and perform any works or contract in a manner that will minimise disturbance of people, local flora or fauna, natural and constructed waterways.

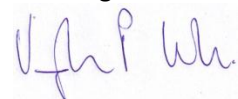

Avoid known contamination of any area by avoiding spills and leakages of petroleum and other noxious materials.

Conduct our operations in compliance with legislative requirements using these as a minimum standard.

All AMWD employees will follow the basic rules of protecting the environment and these will include but will not necessarily be limited to the following:-

- Drive vehicles on established roads in a manner which will minimise impact on the area, at moderate speeds to reduce dust and noise;
- Keep clearance of natural flora and fauna to an absolute minimum, where roads, tracks or pads are not already present;
- Purchase and utilise environmentally friendly products wherever reasonably practicable;
- Respect others property and not trespass on private land or leases;
- Minimise the risks of fires;
- Not interfere with any native sites, or remove any aboriginal artefacts, relics or other items of national interest such as fossils etc.;
- Remove or contain all rubbish and leave the area in a clean and tidy manner on completion of the job
